

```
#include <stdio.h>

void main()
{
    int i, j, N;

    /* Code Block To Get The Input From The User */

    printf("Enter number of rows To Print Hollow Square : ");
    scanf("%d", &N);

    for(i=1; i<=N; i++)
    {
        for(j=1; j<=N; j++)
        {
            if(i==1 || i==N || j==1 || j==N)
            {
                /* Code Block To Print The First & Last Column */
                printf("*");
            }
            else
            {
                printf(" ");
            }
        }
        printf("\n");
    }
}
```
